

Sail away

On a silent shore
Another time we are all alone
And watch the sky, how the waves roll by
And we all know, we have to go

All our things are packed
And we all feel, we are ready now.
To fly so high, to see the waves roll by
It brings us out to Sail away.

*Let us Sail away, here we cannot stay
The ones we love they will carry on
To navigate and to catch the sun*

Now the sun it rise
In front of us we see the days go by
Another day and another year has passed
But we go on to catch the sun

Let us...

*Let us sail away, here we cannot stay
We will sail into the setting sun
'cause were to stop, we do not know*
