

Once upon a time

Saw a glimpse of heaven in your eyes and the star did shine up
in the sky

As you caught my eyes I sent a change and I knew things
wouldn't be the same

Are you the one they're looking for are you the one who'll save
us all

Many people comes to visit you and I do not know just what to
do

When the three wise man came down that day I svear I saw a
change in them as well

Are you the one they're looking for the king who'll come to save
us all

On the day a child was given birth and it sent a message
through the world

Care for those that you call your own faster then you know it
they are gone

So we celebrate a newborn life whit the christmas candles that
we light
