

And onwards

This is where I'm now but where am I tomorrow?

Looking at my life to this point I cannot know

But the world will always change but it doesn't mean I have to

Finding solid ground makes me not go down

I never really cared about this when I was young.

Some might say I did but the wounders still was lost

As I'm looking back right now I can see this very clear

And as I'm trying to recap, time keeps rolling on...
